Art.-Nr: LSYS-WF4

Precise wall-corridor lens – Optimal light control for safety lights

Rapid deployment system for precise illumination of escape routes and corridors

The wall-corridor lens directs the light to the center of the corridor in wall-mounted safety luminaires, with the LED beaming downwards

For optimum light distribution, it can be inserted into the respective luminaire directly at the mounting location using the quick-mounting system, depending on the application. This simplifies mounting and improves flexibility when installing.
