

LIGHTLINX®

ANYWHERE, ANYTIME, UP-TO-DATE.

THE LIGHTLINX® ONLINE PORTAL BY RP-TECHNIK

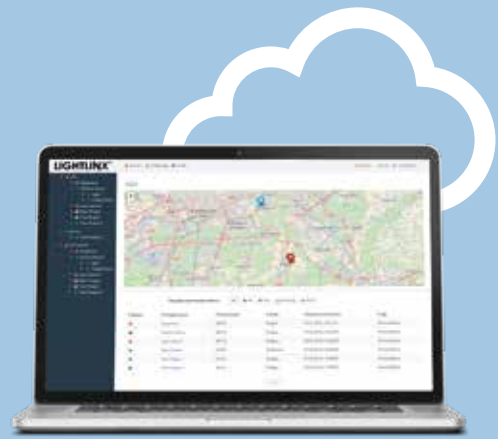

LIGHTLINX® is the new web portal of RP-Technik that offers a new overview of your emergency lighting installations. It tells you which projects are located where, as well as their current status. From configuration, through existing messages, all the way up to complete inspection test reports – LIGHTLINX® helps you keep track of everything.

MADE IN GERMANY

 **RP-TECHNIK**
PART OF RP-GROUP

LIGHTLINX®

- RP emergency lighting systems store their configurations and inspection test reports in the LIGHTLINX® Cloud*
- The LIGHTLINX® Portal displays all information regarding the installations
- Filtering and sorting of the installations by system status, region, etc.
- Ideal for planning maintenance trips and drafting documentation from the office

www.lightlinx.com
