

Art.-Nr: KXBE
Concrete installation box for ceiling formwork installation for emergency lighting
Robust flush-mounting box with flexible cable entries –
Compatible with KXU and KEU mounting frames

Concrete installation box for mounting on the ceiling formwork.

Multiple conduit entries allow for flexible and needs-based cable routing. After concreting, the luminaire is installed using an installation frame. The KXE frame is compatible with luminaires from the KXU series. KEE frame is compatible with luminaires from the KEU series.
