Art.-Nr: FMWD009ML
Exit sign Centralised power supply systems
Wall mounting, Central power supply (ML), CPS, 20 m, IP65, Zinc die-cast, White

Robust zinc die-cast emergency exit sign luminaire for a dynamic escape guidance system.

10 display options are provided in both normal and activated mode. The two operating modes can be easily selected using the rotary coding switch.

Operating modes are activated via a potential-free contact, e.g. on a smoke detector or the fire alarm system. The supply needed for the potential-free contact is generated and monitored in the luminaire. So no additional voltage supply is needed and the potential-free contact can be connected straight to the luminaire. A direct local connection improves system safety.

Control and monitoring via central power supply system.
