

Art.-Nr: BALLPLX-AX

Ball impact-resistant protective cover (PMMA) transparent for lights - AXW

Highest protection according to DIN 18032: Robust plexiglass (PMMA) for maximum ball impact resistance and IK10 impact resistance.

The transparent ball protection hood made of Plexiglas (PMMA) is suitable for use in sports halls. It is ball-impact resistant according to DIN 18032 and, with an IK10 rating, offers a high level of protection against impacts and shocks. In addition to protection, it allows a direct, unobstructed view of the light fixture.
