

**Art.-Nr: DBU150DS**  
**maintained luminaire switching unit**  
**maintained luminaire switching unit with a switching capacity of 15000 W**

Maintained luminaire switching unit with a switching capacity of 15000 W, designed for use in MDC systems. Enables reliable switching to continuous lighting in case of need – suitable for operation with conventional light sources.

**Note:** Not suitable for LED light sources. High inrush currents may cause malfunctions.
