RP GROUP
SOLUTIONS IN SAFETY + LIGHTING

## Art.-Nr: WLZENT02
## Wireless Professional control centre
## Robust LINUX industrial PC with intuitive touchscreen

With Wireless Professional, wireless control and monitoring of single-battery emergency and safety luminaires becomes child's play!
The heart and therefore the control centre of the system is the **WLZENT** setup and monitoring unit.
This is easy to install and is fitted in a wall-mounted housing.

Benefits of the control centre (WLZENT) at a glance:

- WLZENT, developed in-house and based on a LINUX industrial PC with intuitive user interface
- Using the LINUX operating system ensures greater protection from cyber attacks and less maintenance work for updates
- Functional, easy to service wall-mounted housing with integrated TOUCH screen
- Can be installed at any central point in the building which is occupied at all times
- Wireless - all crucial system information is displayed clearly and directly
- The integrated control software is available in several languages
- The wireless system can include 1000 luminaires per control centre as standard
- 5 timer functions provided in the standard scope (a timetable can be saved)
- Option of networking with other systems

Update der WLZENT Zentrale:

Download Wireless Professional Software 3.0.4 for WLZENT02 (Rustdesk)

Download Wireless Professional Software 3.0.4 for WLZENT02 (TeamViewer)

Please note the update information provided in the WLZENT user manual.
