Art.-Nr: WLZENT03
Wireless Professional control centre
Robust LINUX industrial PC with intuitive touchscreen

With Wireless Professional, the wireless control and monitoring of self-contained emergency and safety lights becomes child's play!
The heart and thus the center of the system is the **WLZENT** set-up and monitoring unit.
It is easy to assemble and built into a wall housing.

Advantages o the headquarters (WLZENT) at a glance:

- WLZENT, an in-house development based on a LINUX industrial PC with an intuitive user interface
- By using the LINUX operating system, more security against cyber attacks and lower maintenance costs when updating
- Functional, service-friendly wall housing with integrated TOUCH screen
- Can be installed at a permanently manned central point in the building
- Wireless- all the crucial system information directly and clearly at a glance
- The integrated control software is available in several languages
- The standard wireless system can include 1000 devices per control center
- Equipped with 5 timer functions as standard (storage of a schedule possible)
- Possibility of networking with other systems

TECHNICAL DATA

Charger	No
Modules SAM	No
IO modules	Optional
CCIF	No
Networkable	Yes
Outgoing SS/SD	No
Battery compartment	No
Input voltage AC	230 V
Input frequency	50 / 60 Hz
Material	Metal, Polycarbonate
Housing color	White
Insulation class	IP20

Depth	68 mm
Width	294 mm
Height	265 mm
Weight	3.65 kg
Weight incl. packaging	3,65 kg
Customs tariff number	84713000
GTIN	4260766553776
