

Art.-Nr: AM-X-PKG

Precision ball joint for square pendulums – tilt compensation up to 23°

Flexible accessories for standard-compliant installation of emergency exit lights on sloping ceilings (A series/OLED)

Ball joint for all luminaires with a square pendant (OLED, A series), compensates for sloping ceilings up to an incline of 23°. This allows emergency exit sign luminaires to still be mounted straight and in line with the applicable standards.

The practical ball joint is mounted between the pendant and the luminaire's seat on the ceiling. Available in various colours with the following item code endings -WS (white), -AZ (anthracite) and -E (stainless steel look).
