

**Art.-Nr: AWM001**  
**Wall bracket AWM for emergency lights - 90° flag mounting**  
**Perfect alignment and aesthetic integration for escape route signs**

The AWM wall bracket allows luminaires to be fitted at a 90° angle from the wall and is therefore suited to indicating escape routes in hallways or long corridors. The simple, straight-line design is tailored to the compatible emergency luminaires. Once mounted, no screws etc. can be seen so the wall bracket doesn't stand out but looks like part of the emergency luminaire. Suitable for: RM,RI,LM,AS,KT
