

Art.-Nr: DCM62 Strømkretsmodul circuit module DCM62

The DCM12E, DCM32, DCM42 and DCM62 circuit modules are powerful expansion modules for the safety lighting systems of the multiControl plus, midiControl plus, miniControl XL plus, miniControl plus and microControl plus series. With two separately monitored circuits each, they provide a reliable supply with a maximum output current of 1 A (DCM12E), 3 A (DCM32), 4 A (DCM42) or 6 A (DCM62).

Thanks to integrated individual luminaire query, self-calibrating circuit monitoring and earth fault and fault voltage monitoring (when the circuit is not active), the modules ensure maximum operational reliability. All relevant status data can be conveniently retrieved at any time on the central computer via the integrated INFO button.

Ideal for standard-compliant, flexible and maintenance-friendly emergency lighting.

TEKNISKE DATA

materiale	aluminium, plast
Farge på huset	antrasitt
Inngangsspenning AC	230 V
Inngangsfrekvens	50/60 Hz
Strømforbruk	0,4 W
dybde	174 mm
Bredde	35 mm
Høyde	128 mm
Vekt	0.29 kg
Tolltariffnummer	85389091

Fra: 05.06.2025 - Det tas forbehold om tekniske endringer og feil.
