

Art.-Nr: KMMU011WB
Exit sign Self-contained
Universal, Wireless Basic (WB), 1 h, 24 m, IP43,
Polycarbonate, White

Slim convex emergency exit sign luminaire with clear, closed surround, which tapers downwards in a continuous and symmetrical manner. Suited to inscription on one or two sides. The pictograms are on the inside and are inserted without the use of solvents.

Thanks to the snap-in mechanism between the upper and lower part, the luminaire has a harmonious look and appears closed all the way round. The luminaire is connected to the mains in the ceiling section. When closed, the luminaire is powered via contact plugs. This greatly simplifies mounting and makes convenient connection possible despite the small size of the luminaire.

Wireless control and monitoring for small installations of up to 50 luminaires with Wireless Basic. Planning certainty is provided by tool-free, variable use of the pictograms on site. A set of pictograms corresponding to DIN ISO 7010 (arrow to the right, left, up and down) is supplied as standard. Universal mounting includes fitting on the wall and ceiling as well as the option of fitting in the ceiling in conjunction with the mounting frame available.
