

Art.-Nr: YMOCA-GATEWAY-CGW-001 Casambi Cloud Gateway PSU

Using a Casambi Cloud Gateway, you can receive data from your Casambi network and control it via the Internet. This form of control is available anywhere using your smartphone.

It provides most of the functions available on site.

1. Create groups, scenes and animations.
2. Dim individual luminaires or groups of luminaires or switch them on/off.
3. Dim an entire network or switch it on/off. Switch scenes and animations on/off.
4. Control the colour temperature, colour shade and saturation level with the controller in the app.
5. Create and edit timers.

The Casambi Cloud Gateway works mainly with Evolution firmware.

TECHNICAL DATA

Dimensions	
Product dimensions Length	100.8 mm
Product dimensions Width	73.7 mm
Product dimensions Height	29.25 mm
Certification	
Insulation class	2
Protection type (IP)	IP20
power supply	
Electrical design	with external control gear
Temperatures	
Ambient temperature (Min)	0 °C
Ambient temperature (Max)	+50 °C
CASAMBI Products	
Communication type	CASAMBI, Bluetooth
Frequency band	2,403 - 2,479 GHz
Max. transmission power	+4 dBm
Certifications	CE, RoHS

As of: 15.04.2025 - Subject to technical changes and errors.
